

Software Solutions for COVID-19 Testing and Vaccination

Who We Are

Primary.Health is the engine behind your COVID-19 testing and vaccination programs. Our web-based platform enables organizations to quickly register participants, schedule appointments, arrange for easy on-site check-in and check-out, and exchange data between labs and state databases, with automated reporting and patient notification. Our analytics tools inform program performance, health equity metrics, and process improvement.

Why Choose Primary

-  User-friendly interface
-  Web-based portal works with any browser
-  No need to install apps or create logins
-  Fully HIPAA-compliant
-  Works on any smartphone, tablet, or computer
-  Supports 15 languages
-  Customer/client support

600+

testing sites &

70+

vaccine sites

Who We Serve

Government Agencies

Educators

Research Institutions

Community Organizations

Health Care Sector

"Parents and students are eager for schools to reopen in San Diego. Primary.Health's automated technology is giving us the tools we need register, streamline and organize testing so that we can get life back to normal for our kids, while ensuring teachers and parents feel healthy and safe."

Donnie Salamanca, Deputy Superintendent,
Coronado Unified School District

"Primary.Health's platform has allowed us to adapt to the evolving public health needs of the local and diverse communities served through our parent company Gary Community Investments, while simultaneously building a national model for an exceptionally proactive and equitable response to the COVID-19 pandemic."

Mike Johnston, CEO Gary Community Investments & Chairman,
COVIDCheck Colorado

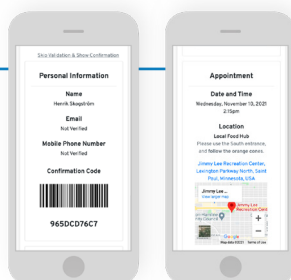

Software Solutions for COVID-19 Testing and Vaccination

How It Works

Site Logistics & Capacity Planning

We design a program that meets the needs of your locations, populations, and program goals.

Participant Registration & Appointment Scheduling

Participants can easily register, sign consents, and book appointments.

On-Site Workflow Management

Achieve higher throughputs (~50 people per hour per lane) and faster participant times (<2 minutes per person).

Automated Reporting

Eliminate paperwork and reduce errors by automating state reporting and participant notifications. We provide digital proof of test result/vaccination.

Data Analytics & Dashboards

Monitor metrics in real time to evaluate program performance and promote health equity.

The Platform

Key Features

- Convenient appointment scheduling
- Faster on-site check-in and check-out
- Automated result notification
- Automated state reporting
- Register household members
- Collect insurance/credit card information
- Digital patient/parental consent
- Waitlist options
- Travel letter options

Our Platform Supports

- PCR testing
- SalivaDirect™
- Abbott BinaxNOW™
- Sofia® (real-time PCR)
- Rapid antigen
- LAMP
- Emerging technologies
- Flu vaccine
- COVID-19 vaccine

COVID-19 Vaccine Features

- Eligibility/gatekeeping criteria
- Health equity tools
- Multi-dose scheduling management
- Proper dosing intervals
- Pre-screening questions
- Automated follow-up symptom questionnaire
